

April 2026

Release Note: QIAGEN® System Updater (v1.1.3.4)

At QIAGEN, we are continuously making improvements to provide the highest level of performance with our instruments. To reduce the number of security vulnerabilities and threats of cyber attacks when using QIAGEN instruments and software, QIAGEN has developed the QIAGEN System Updater. Consequently, we are pleased to inform you that the updated QIAGEN System Updater 1.1.3.4 version is now available.

The QIAGEN System Updater is for use with your QIAGEN laptop computer in conjunction with Microsoft® Windows® 10. Windows security updates provided by the QIAGEN System Updater help ensure that your system performs as intended. We test each release on software platforms that are verified for use with the QIAGEN System Updater.

The QIAGEN System Updater and the corresponding instructions for use are available here (www.qiagen.com/QIAGEN-System-Updater). The instructions for use describe how to install and use the QIAGEN System Updater.

If needed, please forward this document to the people involved in IT topics in your department.

If you have any questions or need assistance, please contact your local QIAGEN representative or contact our Technical Support Center (www.qiagen.com/support/technical-support).
