Online Availability of Instrument Instructions for Use and Software

Dear valued QIAGEN® customer,

Let's work together to make science more sustainable. As part of QIAGEN's sustainability initiative, our goal is to minimize the environmental impact of our products by reducing, reusing, and recycling wherever possible.

We are moving away from printed manuals and CDs with software installation files. Instead, please visit the QIASprint® Connect product page to access the latest manuals or related software packages online under the following QR code or link in the resources section:

If you have any questions, please contact your local QIAGEN representative or contact our Technical Support Center (www.qiagen.com/support/technical-support).

Best regards,

QIAGEN
