

February 2022

## Important Note

### Discontinuation of the GeneRead® DNA FFPE Kit (cat. no. 180134)

The GeneRead DNA FFPE Kit (cat.no. 180134) together with our GeneRead portfolio has reached the end of lifetime and will be discontinued on December 31, 2022.

As an alternative product, we offer you the QIAamp® DNA FFPE Advanced UNG Kit (cat. no. 56704).

To help you with the transition please note the following information:

- The QIAamp DNA FFPE Advanced UNG Kit contains the same buffers and reagents as the GeneRead DNA FFPE Kit.
- The QIAamp DNA FFPE Advanced UNG Kit contains UCP (ultraclean production) spin columns that are free of contaminating microbial DNA.
- The QIAamp DNA FFPE Advanced UNG Kit includes an improved protocol for:
  - increased amount of starting material (up to 4 mm<sup>3</sup>)
  - faster sample processing
  - higher DNA yield

If you have any questions or concerns, please contact the QIAGEN Technical Services.

We very much value our relationship with you and apologize for any inconvenience this change may cause.

Kind regards,

QIAGEN
