

Important Note

ipsogen[®] BCR-ABL1 MbcR IS-MMR Kit (cat. no. 670723)

Dear valued *ipsogen*[®] BCR-ABL1 MbcR IS-MMR Kit customer,

We are pleased to inform you of the availability of the *ipsogen* RT Kit (cat. no. 679823), Class A (non-sterile) device compliant with the In Vitro Diagnostic Devices Regulation EU/2017/746 (IVDR).

In compliance with the IVDR, the production of the *ipsogen* RT Kit (33) CE (cat. no. 679923), CE-marked under EU IVD Directive 98/79/EC (IVDD), has been discontinued on the IVDR's date of application (May 26, 2022). Consequently, this IVDD *ipsogen* RT Kit (33) CE (cat. no. 679923) will be sold only until our warehouse stock lasts and no later than by its valid expiry date.

The table below shows the details of the to-be-phased-out IVDD kit and its available successor IVDR kit:

IVDD kit to-be-phased-out:		Available successor IVDR kit:	
Product name IVDD	Catalog number IVDD	Product name IVDR	Catalog number IVDR
<i>ipsogen</i> RT Kit (33) CE	679923	<i>ipsogen</i> RT Kit	679823

Please note that there is no change made to the kit's composition. Importantly, also note that the IVDD *ipsogen* RT Kit (33) CE (cat. no. 679923) and IVDR-compliant *ipsogen* RT Kit (cat. no. 679823) are technically identical.
