Important Note

Reduced Amount of Beads in PowerMax® Bead Pro Tubes

Dear valued DNeasy® PowerMax Soil Kit customer,

In our efforts to provide more sustainable solutions for the lab, our Product Development Team has optimized the use of beads in the PowerMax Bead Pro Tubes for the DNeasy PowerMax Soil Kit (cat. no. 12988-10).

By reducing the amount of beads by 50%, we gain shipping efficiency thanks to the lower weight. Furthermore, since fewer beads are used, there is less waste! These are all accomplished without having an impact on the kit's performance.

If you have any questions, you can reach us by phone or get online support. For localized contact details, visit www.qiagen.com/support

Kind regards,
