Labware List — QIASymphony® PAXgene® Blood RNA Kit

Sample and eluate tubes/racks that can be used with the QIASymphony PAXgene Blood RNA Kit and the QIASymphony SP (software version 5.0; labware package SOW-516-7)

This document is the QIASymphony PAXgene Blood RNA Kit *Labware List* R1 for labware package SOW-516-7.

General Information

For Research Use Only. Not for use in diagnostics procedures. No claim or representation is intended to provide information for the diagnosis, prevention, or treatment of a disease.

Important: Before using this Labware List, confirm that it is consistent with the labware package installed on your QIASymphony system.

Legend

- Recommended: These tubes are for use in combination with this protocol.
- User-defined: User is responsible for defining and/or validating as the user deems appropriate.
- Not recommended: These tubes are not for use in combination with this protocol.

- x/■ Minimum sample volume (µl) required per sample per protocol (denoted by x)/clot detection possible.
- x/□ Minimum sample volume (µl) required per sample per protocol (denoted by x)/clot detection not possible.

Note: Be aware that other tubes are available that can be used in combination with other QIASymphony Kits, but are not recommended for any protocols that can be used with this kit.

* Indicates labware that can be cooled using a cooling adapter with bar code.

** Indicates labware that can be cooled using a cooling adapter without bar code (non-transferable and not usable on QIASymphony AS).

[†] Do not use 96-well plates in "Elution slot 4", since not all positions can be accessed by the robotic arm.

[‡] Labware that cannot be transferred to or used on QIASymphony AS.
