# Advancing our eco-friendly initiative, together!

To help protect the environment, we are reviewing all our business processes and initiating changes to dramatically reduce our environmental impact. For starters, we've stopped printing our handbooks and adding them to every kit box – less paper, less waste!

Please join us in our effort to help protect the planet by reducing paper consumption. You can now download our complete handbooks, and supplementary protocols and information, from our website at [www.qiagen.com/handbooks](http://www.qiagen.com/handbooks).
